

# DOCK AND HARBOUR ENGINEERING

By

Hasmukh P. Oza, Gautam H. Oza

**Edition** : 7<sup>th</sup> Revised and Enlarged Edition : 2013  
**ISBN** : 978-93-80358-78-9  
**Size** : 170 mm x 240 mm  
**Binding** : Paperback with Four Color Jacket Cover  
**Pages** : 384 + 24

₹ 200.00

## ABOUT THE BOOK

This book is an outcome of extensive experience in design office and of construction. Both the authors have been actively associated with academics as well.

The book deals with all the normal port aspects in a holistic way. Topics, such as “Ship Features”, “Traffic Forecasting and Hinterland”, “Cargo Handling Equipment”, “Construction Materials” etc. are essential back-ground knowledge for any dock and harbour engineer. These too have been covered.

For easy reading, the book is divided into self-contained chapters dealing with each topic. It contains useful tables of data and is profusely illustrated with diagrams and photographs to assist the reader. Fundamental concepts are lucidly presented and derived and empirical formulae given with clarity of underlying assumptions.

Two case histories have been added in this Revised Edition. One is design of a waterfront structure, a Berth or a Wharf. It gives the exact procedure that was followed while designing a waterfront structure viz. a berth, in a professional practice. The aim in presenting this “case” is to acquaint the readers to almost all the aspects of a berth, with emphasis on the design. Almost all the design calculations along with the stress/force diagrams are included. The second “case” is of another waterfront structure, a Sea Water Intake Station. The salient information for determining the guiding dimensional parameters of such a sea water intake station is given. These are meant for the students with inquisitive minds and the practicing engineers seeking guidance when faced with not so usual problems.

Other cogent information has been included in the form of Appendices. Some of these are: “Ships for LPG – LNG and Other Bulk Liquids”, “Properties of Liquids and Liquefied Gases”, “Details of Selected Ships”, “Coastal Regulation Zone” and “Port Charges”. These should be useful to the students as well as to the practicing engineers.

The book comprehensively covers the subject for degree courses in engineering of all the Indian Universities, Diploma Examinations conducted by various Boards of Technical Education, Certificate Courses as well as for the A.M.I.E., U.P.S.C., G.A.T.E., I.E.S. and other similar competitive and professional examinations. Written in a simple language, with illustrative references, it will be useful to students to grasp the subject and practising engineers in designing.

## CONTENT

- 1 SEA AND TIDES
  - 2 HYDROGRAPHIC SURVEYS AND CHARTS
  - 3 WINDS, WAVES AND CYCLONES
  - 4 SILTATION AND EROSION
  - 5 INVESTIGATIONS AND MODEL TESTS
  - 6 SHIP FEATURES RELATED TO PORT PLANNING
  - 7 TRAFFIC FORECASTING AND HINTERLAND
  - 8 HARBOUR LAYOUT
  - 9 CHANNEL, BASIN AND BERTHS
  - 10 BREAKWATERS
  - 11 WHARVES
  - 12 JETTIES, DOLPHINS AND MOORINGS
  - 13 BERTHS FOR CRUDE OIL AND PETROLEUM PRODUCTS
  - 14 RO-RO FERRY SERVICE
  - 15 LOCKS
  - 16 SHORE PROTECTION WORKS
  - 17 DRY DOCKS AND SLIPWAYS
  - 18 CARGO HANDLING EQUIPMENT
  - 19 APRONS, TRANSIT SHEDS AND WAREHOUSES
  - 20 SUPPORTING FACILITIES AND ANCILLARIES
  - 21 NAVIGATIONAL AIDS
  - 22 DREDGING AND DREDGERS
  - 23 CONSTRUCTION MATERIALS AND METHODS
  - 24 DESIGN OF A BERTH (WHARF) – A CASE STUDY
  - 25 SEA WATER INTAKE STATION – A CASE STUDY
- APPENDIX I SHIPS FOR LPG - LNG AND OTHER BULK LIQUIDS
- APPENDIX II PROPERTIES OF LIQUIDS AND LIQUEFIED GASES
- APPENDIX III EXPLOSIVES AND HAZARDOUS CARGOES
- APPENDIX IV DETAILS OF SELECTED SHIPS
- APPENDIX V COASTAL REGULATION ZONE (CRZ)
- APPENDIX VI GENERAL REQUIREMENTS FOR BERTHS AS PER IS:4651
- APPENDIX VII PORT CHARGES
- APPENDIX VIII ANGLES OF INTERNAL FRICTION, UNIT WEIGHTS AND LIQUIDITY FACTORS OF SOME MATERIALS
- APPENDIX IX METRIC CONVERSIONS
- APPENDIX X BRITISH AND METRIC EQUIVALENTS
- APPENDIX XI SI UNITS
- APPENDIX XII SOME RELEVANT INDIAN STANDARDS
- REFERENCES AND FURTHER READING
- ACKNOWLEDGEMENTS

**DOCK AND HARBOUR ENGINEERING**  
**DETAILED CONTENTS**

**Chapter 1 SEA AND TIDES**

- 1-1 Tides
- 1-2 Tidal Levels and Changes in Sounding Datum
  - Changes on Coast
  - Changes in an Estuary or River
- 1-3 Tidal Theories
- 1-4 Tide Tables
- 1-5 Bores
- 1-6 Tidal Streams
- Exercise 1

**Chapter 2 HYDROGRAPHIC SURVEYS AND CHARTS**

- 2-1 Triangulation
- 2-2 Sounding Lines
- 2-3 Sextant, Station Pointer and Hi-Fix
- 2-4 Instruments for Sounding
- 2-5 Remote Sensing
- 2-6 Current Observations
- 2-7 Charts
- Exercise 2

**Chapter 3 WINDS, WAVES AND CYCLONES**

- 3-1 Winds
- 3-2 Waves
- 3-3 Significant Wave
- 3-4 Energy of Waves
- 3-5 Water Pressure
- 3-6 Cyclones
- Exercise 3

**Chapter 4 SILTATION AND EROSION**

- 4-1 Due to Wind
- 4-2 Due to Waves
- 4-3 Due to Tides
- 4-4 Littoral Drift
- 4-5 Erosion
- Exercise 4

**Chapter 5 INVESTIGATIONS AND MODEL TESTS**

- 5-1 Surveys
- 5-2 Meteorological Data
- 5-3 Oceanographic Data
- 5-4 Geological Data
- 5-5 Soil Investigation
- 5-6 Seismic Data
- 5-7 Model Testing
- 5-8 Local Resources
- Exercise 5

**Chapter 6 SHIP FEATURES RELATED TO PORT PLANNING**

- 6-1 Trends in Shipping
- 6-2 Ship Types
- 6-3 Hovercraft
- 6-4 Hydrofoil Boat
- 6-5 Multi-Hull Ship
- 6-6 Other Ships
- 6-7 Barges for Lighterage Working
- 6-8 World Shipping
- 6-9 Shipping Terminology
- 6-10 Ship Terms
- 6-11 Tonnage Relations
- 6-12 Design Ship
- 6-13 Ship Dimensions
- 6-14 Ship's Gear
- 6-15 Special Features
- 6-16 Ship Costs
- Exercise 6

**Chapter 7 TRAFFIC FORECASTING AND HINTERLAND**

- 7-1 Hinterland
- 7-2 Traffic
- 7-3 Traffic Through GMB Ports
- 7-4 Growth Rates and Five Year Plans
- 7-5 Likely Trends
- 7-6 Traffic Forecasting
- 7-7 Methods of Forecasting
  - Qualitative Methods
  - Quantitative Methods
- 7-8 Trend Analysis
- 7-9 Traffic Forecasting by Curve Fitting and Method of Least Squares
  - Fitting a Straight Line (The Least Square Line)
  - Fitting a Parabola (The Least Square Parabola)
- Exercise 7

**Chapter 8 HARBOUR LAYOUT**

- 8-1 Harbour Types
- 8-2 Port Terms
- 8-3 Site Selection
- 8-4 Features of a Harbour
  - Harbour Entrance
  - Approach Channel
  - Turning Basin
  - Sheltered Basin
  - Breakwaters
  - Wharves and Quays
  - Jetties and Piers
  - Lock and Locked Basin
  - Dry Docks and Slipways
  - Ancillaries
- 8-5 Harbour Planning
- 8-6 Layout
- Exercise 8

**Chapter 9 CHANNEL, BASIN AND BERTHS**

- 9-1 Channel
  - Approach Channel
  - Channel Alignment
  - Curves
  - Stopping Distance
- 9-2 Ship Motions
- 9-3 Harbour Entrance
  - Channel Depth
  - Illustration
  - Channel Width
  - Manoeuvring Lane
  - Bank Clearance Lane
  - Width of Ship Clearance
- 9-4 Harbour Entrance Width
- 9-5 Harbour Basin
  - Depth of Basin
  - Berthing Length and Width
  - Passage and Manoeuvring Area
- 9-6 Turning Basin
- 9-7 Anchorage and Off Shore Moorings
- 9-8 Berths
- Exercise 9

**Chapter 10 BREAKWATERS**

- 10-1 Vertical Wall Breakwaters
- 10-2 Design of Vertical Wall Breakwater
- 10-3 Rubble Mound Breakwater

**DOCK AND HARBOUR ENGINEERING**  
**DETAILED CONTENTS**

- 10-4 Breakwater Pierheads
- 10-5 Breakwater Height
- 10-6 Breakwater Failures
- 10-7 Floating Breakwater
- Exercise 10

**Chapter 11 WHARVES**

- 11-1 Gravity Walls
  - Dimensions of Wall
- 11-2 Slip Circles
- 11-3 Cross-Section of Wall
- 11-4 Masonry or Mass Concrete Wall
- 11-5 Wall on Wells
- 11-6 Wall of Precast Blocks
- 11-7 Considerations in Designing Wharf on Wells
- 11-8 Sheet Pile Walls
  - Driving of Sheet Piles
  - Illustrative Types
- Exercise 11

**Chapter 12 JETTIES, DOLPHINS AND MOORINGS**

- 12-1 Piles
  - Timber Piles
  - Steel Piles
  - Precast R.C.C. Piles
  - Pile Shoes
  - Single Pile and a Group of Piles
  - Load Capacity of a Pile
  - Raker Piles, Bracings and the Deck
- 12-2 Berthing of Ships
- 12-3 Fenders
  - Fender Types
- 12-4 Docking and Mooring Forces
- 12-5 Stresses due to Waves
- 12-6 Jetty Alignment
- 12-7 Dolphins
- 12-8 Pierheads
- 12-9 Moorings
- 12-10 Floating Moorings
  - Buoy
  - Cables
  - Anchors
- 12-11 Pontoon – Wharves and Piers
- Exercise 12

**Chapter 13 BERTHS FOR CRUDE OIL AND PETROLEUM PRODUCTS**

- 13-1 Liquid Cargo Terminals – Oil Terminals
- 13-2 Berth With Breasting and Mooring Dolphins
- 13-3 Single Buoy Mooring (SBM)
  - Catenary Anchor Leg Mooring (CALM)
  - Single Anchor Leg Mooring (SALM)
- 13-4 A Single Buoy Mooring (SBM)
- 13-5 Other System – Platform Mooring
- Exercise 13

**Chapter 14 RO-RO FERRY SERVICE**

- 14-1 Roll-On-Roll-Off Concept
- 14-2 Truck Traffic
- 14-3 Other Factors Affecting RO-RO Ferry Service
  - Voyage Scheduling
  - Contract Booking
  - Collection of Octroi Duty
  - Insurance
  - Applicable Acts
- 14-4 Requirements at Ports

- 14-5 Future Alternative
- 14-6 Costs Involved
- 14-7 Facilities at Mumbai (Bombay)
- 14-8 Evaluation of RO-RO Ferry Service
- Exercise 14

**Chapter 15 LOCKS**

- 15-1 Gates
- 15-2 Passages
- 15-3 Ebb Gates
- Exercise 15

**Chapter 16 SHORE PROTECTION WORKS**

- 16-1 Seawalls, Bulkheads and Revetments
- 16-2 Protective Beaches or Spending Beaches
- 16-3 Sand Dunes
- 16-4 Groynes
  - Permeable Groynes
  - High and Low Groynes
  - Adjustable Groynes
- 16-5 Off Shore Breakwaters
- Exercise 16

**Chapter 17 DRY DOCKS AND SLIPWAYS**

- 17-1 Repair Arrangements
- 17-2 Dry Dock
- 17-3 Floating Dry Dock
- 17-4 Slipway and Marine Railway
  - Usefulness of the Slipway
- 17-5 Shiplift
- 17-6 Syncrolift
- Exercise 17

**Chapter 18 CARGO HANDLING EQUIPMENT**

- 18-1 Main Types
- 18-2 General Cargo Equipment
  - Quay Crane
  - To Clarify the Terminology
  - Mobile Crane
  - Forklift Truck
  - Other Machines
- 18-3 Bulk Cargo Equipment
  - Loading Equipment
  - Discharging Equipment
- 18-4 Container Equipment
- 18-5 RO-RO Link Span
- Exercise 18

**Chapter 19 APRONS, TRANSIT SHEDS AND WAREHOUSES**

- 19-1 Aprons
- 19-2 Transit Sheds
- 19-3 Warehouses
- Exercise 19

**Chapter 20 SUPPORTING FACILITIES AND ANCILLARIES**

- 20-1 Supporting Facilities
  - Railways
  - Roads
  - Air-Communication
  - Telecommunication
  - Fresh Water Supply
  - Power Supply
- 20-2 Ancillaries
  - Fire Protective Measures
  - Harbour Crafts
  - Internal Roads, Rail Tracks and Pavements
  - Port Office, Rest Rooms, Canteen
  - Housing and Others
- Exercise 20

**DOCK AND HARBOUR ENGINEERING**  
**DETAILED CONTENTS**

**Chapter 21 NAVIGATIONAL AIDS**

- 21-1 Classification and General
  - General Lights
  - Local Lights
- 21-2 Lighthouses
- 21-3 Lightships
- 21-4 Buoys
- 21-5 Buoyage Systems
  - Starboard Hand Buoys
  - Port Hand Buoys
  - Middle Ground Buoys
  - Mid-Channel Buoys
  - Isolated Danger Buoys
  - Miscellaneous Buoys
- 21-6 Fixed Lights
- 21-7 Leading Lights
- Exercise 21

**Chapter 22 DREDGING AND DREDGERS**

- 22-1 General
- 22-2 Bucket-Ladder Dredger
- 22-3 Grab Dredger
- 22-4 Dipper Dredger
- 22-5 Hydraulic Dredger
- 22-6 Rock-Breaker
- 22-7 Hopper Barge
- 22-8 Pipe Line
- Exercise 22

**Chapter 23 CONSTRUCTION MATERIALS AND METHODS**

- 23-1 Materials
  - Timber
  - Bricks and Stones
  - Structural Steel
  - Concrete
- 23-2 Methods
- Exercise 23

**Chapter 24 DESIGN OF A BERTH (WHARF) – A CASE STUDY**

- 24-1 Introduction
- 24-2 Berth – Wharf
- 24-3 Design
  - Design Criteria
  - Earth Pressure Coefficients
  - Retaining Wall From +7.0 to +3.0 M
  - Twin-Well – Retaining Wall +3.0 M to –14.5 M
  - Tieback Slab and Tieback Wall or Deadman
  - Gap Closing Between Two Wells
  - Other Features
  - The Ramp
- 24-4 Miscellaneous Details

**Chapter 25 SEA WATER INTAKE STATION – A CASE STUDY**

- 25-1 Introduction
- 25-2 Study of Tide Tables
- 25-3 Average Pumping Hours Per Day
- 25-4 Number of Pumps and Header Size
- 25-5 Design Parameters for Structure
- 25-6 Salient Information
- 25-7 Structure and System
  - RCC Intake Station –
    - Covered Platform for Installing the Pumps
  - Piled Approach Trestle
- 25-8 Figures and Photographs

**Appendix I SHIPS FOR LPG – LNG AND OTHER BULK LIQUIDS**

- AI-1 LPG Ships
  - Liquid Petroleum Gas (LPG)
  - Pressurised Ships
  - Semi-Pressurised cum Semi-Refrigerated Ships
  - Refrigerated Ship – Cargo at Atmospheric Pressures

- AI-2 LNG Ships
  - Liquefied Natural Gas (LNG)
  - Ships
    - Boil-Off from Tanks and its Disposal
- AI-3 LPG and LNG Loading/Unloading System
- AI-4 Other Liquid Chemical Cargoes
  - Liquid Ammonia
  - Phosphoric Acid
  - Elemental Phosphorous
  - Molten Sulphur
- AI-5 Other Liquids
  - Vegetable Oils
  - Molasses
- AI-6 Special Liquids Tankers
- AI-7 Transportation Costs

**Appendix II PROPERTIES OF LIQUIDS AND LIQUEFIED GASES**

**Appendix III EXPLOSIVES AND HAZARDOUS CARGOES**

**Appendix IV DETAILS OF SELECTED SHIPS**

**Appendix V COASTAL REGULATION ZONE (CRZ)**

- AV-1 Conservation of Coastal Zones
- AV-2 Coastal Regulation Zones – Guidelines
  - Prohibited Activities
  - Regulation of Permissible Activities
- AV-3 Coastal Area Classification and Development Regulations
  - Category-I (CRZ-I)
  - Category-II (CRZ-II)
  - Category-III (CRZ-III)
  - Category-IV (CRZ-IV)
- AV-4 Norms for Regulation of Activities
  - CRZ-I
  - CRZ-II
  - CRZ-III
  - CRZ-IV

**Appendix VI GENERAL REQUIREMENTS FOR BERTHS AS PER IS:4651**

- AVI-1 Location and Form
- AVI-2 Required Features
- AVI-3 General Cargo Berths
- AVI-4 Tanker Berths
- AVI-5 Explosive Berths
- AVI-6 Fire Protection

**Appendix VII PORT CHARGES**

- AVII-1 Fees Levied on Ships and Vessels
- AVII-2 Pilotage Charges
- AVII-3 Berth Hire
- AVII-4 Fees on Cargo Landed or Shipped

**Appendix VIII ANGLES OF INTERNAL FRICTION, UNIT WEIGHTS AND LIQUIDITY FACTOR OF SOME MATERIALS**

**Appendix IX METRIC CONVERSIONS**

**Appendix X BRITISH AND METRIC EQUIVALENTS**

**Appendix XI SI UNITS**

**Appendix XII SOME RELEVANT INDIAN STANDARDS REFERENCES AND FURTHER READING ACKNOWLEDGEMENTS**

**INDEX**
